The Lipid Expert!

Lipex[®] Sheasoft

- High-quality, pure shea butter
- Exclusively for demanding body butters, creams and lotions
- Stable consistency even at high temperatures
- Excellent smooth consistency
- Elegant skin-feel

Product name

Lipex[®] Sheasoft

INCI name

INCI:Butyrospermum Parkii (EU)
Butyrospermum Parkii (Shea Butter)
(U.S.)

Physical form/Consistency at 20 °C

Triglycerides, Solid (mp 51°C)

Regulatory Status

CTFA, JCIC

Recommended use levels

1-30%

Packaging

Carton 25 kg

Product Data Sheet/Article number

8600

Formulations

JT-04-11, Skin Cushion with Lipex[®]
Sheasoft and Lipex[®] L'sens
TL-08-03, Anhydrous Body Butter,
Sheasoft

August 2008

Functionality and benefits

Lipex[®] Sheasoft is specially developed for demanding body butters and extending the possibilities to formulate valuable shea butter into delicate cosmetic formulations.

Lipex[®] Sheasoft is derived from pure, native shea butter, originating from selected kernels of the shea tree growing in sub-Saharan Africa. This new quality of shea butter combines the beneficial skin-caring properties of shea butter and its unique composition of bioactive minor lipids with optimised physical properties.

Improved temperature stability and simplified crystallisation properties make Lipex[®] Sheasoft an excellent choice for formulations based on high oil-phase contents. A quick crystallisation into the stable crystal form results in homogenous, nice and smooth formulations, manifesting the excellent sensory properties of shea butter.

Applications

Lipex[®] Sheasoft is recommended for formulations based on pure shea butter, whereby a smooth, elegant skin-feel is easily obtained. Should a softer, creamier consistency be desired, the addition of up to 20% of Lipex[®] 205 (liquid shea butter) is advised. Lipex[®] Sheasoft also combines nicely with Lipex[®] Shea (solid shea butter). Forced crystallisation to some 20°C is recommended to facilitate the formation of uniform fat crystals and the best sensory properties in anhydrous formulations.

Lipex[®] Sheasoft is a natural choice for caring body butters, creams and lotions. It is also excellent in products developed for dry and sensitive skin, anti-ageing, moisturising and conditioning body care.
